

# Spunbond

World's First Commercial Islands-In-The-Sea  
Spunbond Machine

Specializing in Multi-Component Fibers

Cross-Section Capabilities:

Segmented Pies  
Hollow Pies  
Sheath/Core  
Islands-In-The-Sea  
Side-by-Side

Spunbond Lines 0.5-6.0 Meters

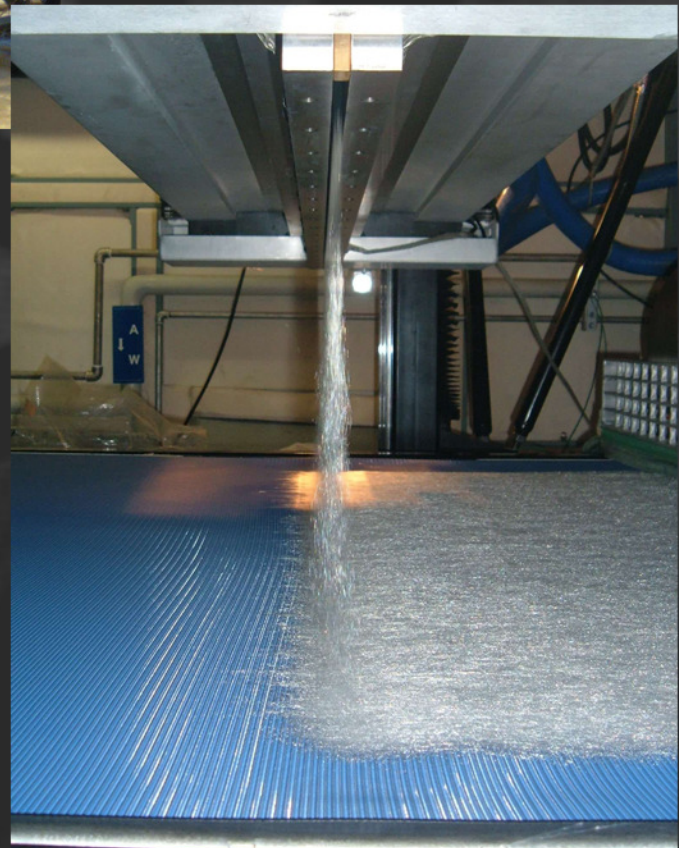

Run All Melt-Spinnable Polymers

High Spinning Speeds (>6000 MPM)

Fine To Heavy Denier Capability

Micro Denier Capability

In-House Pilot Machine for Trials

## The World Leader In Multicomponent Fiber Extrusion Technology
